Thin Client

Who We Are

Encore Electronics, Inc., founded in 1996, specializes in networking solutions for small offices and home. We expand our multimedia, accessory and surveillance lines in recent years. Our customers rely on Encore to be their one-stop shop of digital living products.

Making Connections Easy

Encore Electronics is committed to provide reliable, user-friendly and cost-effective solutions. From product development to customer service, user satisfaction is our main concern.

Global Outreach

Encore Electronics has distribution channels in the US, Canada, Latin America, Europe and Asia. We are proud to be a leader in the Latin American market. Meanwhile, our sales in the US market grows stronger every year.

Media Coverage

News about our products and corporate events can be seen in a wide range of international media.

Channel Support

Encore Electronics has presence in high-profile tradeshows, such as CES and Computex. We also attend various regional roadshows. Our sales and R&D teams actively collect regional information. Accordingly, Encore provides services and products that meet each country's unique demand.

Customer Support

We back our products with first-class support team. End-users can now find many tutorial videos online.

Bluetooth Speaker

ENZSUNTW-M1

Features

- Bluetooth Version:V2.1
- Operating Range:5~15 meter
- Compatibility:3.5mm audio input interface
- Impedance:5 ohm

ENZSUNTW-M2

Features

- Fully qualified Bluetooth V3.0 System
- A2DP V1.2 for high quality music streaming with hand-free design and support line-in
- Build-in high capacity Li-battery

ENZSUNTW-M3

Features

- Bluetooth speaker, great for listening to music in shower room
- Works with bluetooth enabled devices, has built-in sensitivity microphone for phone calls
- Wall-mount by a strong suction cup

Waterproof Speaker

MAKING CONNECTIONS easy

ENZASUNTW-M3

OVERVIEW

Encore BT Speaker is a Bluetooth®- -enabled, water resistant speaker that is compatible with many of the most popular Bluetooth®- -enabled smartphones and tablets including the iPhone, iPad, iPod touch and Android devices.

The BT Speaker provides incredible flexibility by letting you pair up to five devices, enabling you to listen to streaming music from your playlists, music apps or favorite online service from multiple devices. Because it is water resistant, it can be used in the shower, by the pool or even next to you at the beach.

Hands-Free Calling

Built-in microphone and hands-free system design (A2DP), let you enjoy cell-phone hands-free communication while in shower, sports activity, and keeping your hands on the wheel while driving.

Highly Sensitive Microphone

Allows installation flexibility. Noise and echo cancellation ensure your conversations are clear.

Audio Streaming

Allows you to listen to music from compatible Bluetooth® digital audio players and mobile smartphones, such as iPhone®, Android® Smartphone, Windows®8 Mobile Phone. Play, pause, forward and reverse keys provide customized use.

FEATURES

- Water resistant
- Up to 200-foot Bluetooth® range
- Stream audio from your favorite apps
- Play/Pause/Forward/Back
- Multiple mounting options
- Compact and portable
- Compatible with most Bluetooth® devices, such as: iPhone®, Android® Smartphone, and Windows®8 Mobile Phone

ISDB-T Set-top Box

MAKING CONNECTIONS easy

SPECIFICATION

- Fully compliant ISDB-T standard
- Fully compliant MPEG-1 / 2 / 4
- Multi-language OSD support
- 1000 Channels capacity
- Support EPG, Display Present / Next TV Program
- 480i, 480p, 576i, 576p, 720p, 1080i Video Resolution supported
- Auto, 4:3 and 16:9 Aspect Ratio supported
- PAL-M / PAL-N / NTSC auto switch Teletext
- Parental control
- Auto / Manual scan
- Full function remote control
- SPDIF Coaxial output
- Audio decoding: MPEG-1/2, AAC, MP3, HE-AAC, AC-3, E-AC-3
- Composite, component, S-Video output
- HDMI output
- USB SW upgrade / Multimedia playback / Recording as option
- OTA as toption
- 4 Digital LED display as option

Tuner

- Input Frequency Range: VHF, UHF
- Demodulation: COFDM (DQPSK/QPSK/QAM16/QAM64)
- Bandwidth: 6

Connector

- RF Input: 1 x IEC169-2, Female
- RF Output: 1 x IEC169-2, Male
- Digital Output: 1 x HDMI
- Analog Output: CVBS/L/R
- Digital audio output: 1 x Coaxial
- USB: 1 x USB2.0 for upgrading, multi-media play, PVR and time shifting

Environmental Conditions

- Input Voltage: AC110 ~ 240V
- Power Consumption: Max. 5W
- Stand-by Power Consumption: <0.5W
- Operating temperature: 0 ~ 45°C
- Dimension: 168 x 95 x 38 mm

for iPod/iPhone/iPad

Lightning to USB Cable

ENAC-UMAL

PRODUCT DESCRIPTION

- Charge and sync your iPod, iPhone, or iPad with Lightning connector with your computer through an available USB port.
- Compatible with iPhone 5S, iPhone 5C, iPhone 5, iPad (4th generation), iPad mini, iPod touch (5th generation), and iPod nano (7th generation).
  ★ Do Not support iPod shuffle.

SPECIFICATIONS

- Product Name : Lightning to USB Cable
- Available Colors : White, Green, Black, Blue and Pink
- Available Sizes : 4 inch / 18 inch / 38 inch / 6.5 feet
- Cable Type : USB A Type & Lightning Connector
- Operating Temperature : -4°F~104°F / -20°C~40°C

Earphone *MACARONS SERIES*

PRODUCT DESCRIPTION

- Compatible with Apple iPhone, iPad, iTouch and most popular smart phone.
- Copper aluminum diaphragm structure, ensure the quality of the sound.
- 9mm size earphone speaker provide a crisp clear sound and deep bass wtih hidden microphone.
- The soft silicone earbuds provide a super comfortable, noise reducing fit.
- A strong, durable, flexible and stretchable Nylon Cord.

SPECIFICATIONS

- Speaker Size: 9mm
- Frequency Rang: 20 - 20KHZ
- Sensititvity: 94dB ± 3dB
- Impedance: 16Ω
- Cable Length: 120cm
- Connect Jack: 3.5mm
- Available Colors : White, Black, Yellow, Pink and Blue
